**flexbamboo**  
flexible and  
colourful

# flexbamboo

MOSO Flexbamboo is the name for flexible bamboo: instead of glueing & pressing bamboo strips, the strips are connected by a fabric on the backside. In this way, **beautiful (curved) surfaces** can be created. Flexbamboo is an **economical, aesthetical** and **healthy** finishing material that can be used for **flooring, walls, ceilings, cabinets** or **furniture**. For flooring applications a latex backing is applied which makes it very comfortable to walk on. There are two different styles: **solid strip** and **veneered strip**. Flexbamboo comes in rolls with several standard sizes and is finished with a **high quality UV cured oil (SAICOS®)**. Apart from the seven **trendy colours** in the standard assortment, any other colour can be applied **on demand**. Likewise, the rolls can be cut **to any required width and length** – fitting the exact customer's need. Because of the flexibility, prefinishing, custom sizes and limited thickness, Flexbamboo can be **easily installed** saving costs and time.

# discover the flexbamboo benefits

## economical

Compared to other wood and bamboo covering materials, Flexbamboo comes at a considerably lower price without losing the bamboo charm.

## easy to install

Because of the custom sizes, limited thickness and flexibility, Flexbamboo can be easily handled and quickly installed.

## sound absorbing

Because of the latex backing Flexbamboo flooring will reduce contact noise.

## healthy

With a toplayer purely made from the natural resource bamboo, Flexbamboo is anti-static, anti-allergic, and has low indoor emissions.

## eco-friendly

Made from the fastest growing plant on earth, Flexbamboo is a natural and sustainable substitute for regular synthetic covering materials.

## natural look & touch

Inspired by nature, Flexbamboo is not only a conscious choice but also a stylish one.

## endless choices

Flexbamboo is available in a large variety of colours with a high quality UV oil finish. On demand it can be produced in any colour and size, fitting the exact need of the customer.

## warranted quality

Flexbamboo is of the highest quality and comes with a product guarantee of 10 years.
